

The Weekly Roar

2017-2018 Edition 6

Student Interview

Question: Why did you decide to join a *FIRST* robotics team?

Lucas: I joined the robotics team because i thought it would be interesting to be in a club that had my STEM interests in it.

Weekly Focus Mechanical Team

- Focuses on the bulk of the robot build process, and everything mechanical for the robot
- Makes prototypes of robot and plays a larger role in designing the robot

Main focus of this week was:

- Test the prototype robot to make sure everything works
- Finish building the main robot so it is ready for the competitions

Robot Status
